The magazine mainly aims to provide a platform to the students for displaying their creativity, imagination and writing skills. Besides, it is intended to give glimpses of various college-events and activities to the readers. It also strives to showcase the achievements of the students and faculty members.

Celebration of International Yoga Day

The college celebrated international yoga day on 21st June, 2020. Sports in-charge Rajesh Sanaria and Yoga Expert Mr Sumit Jain guided the students in performing various yoga-asanas and exercises. Due to the ongoing pandemic, it was not possible to conduct the program on campus. So the students were asked to perform yoga at their home under the live-guidance of the experts on face-book and instagram. Most importantly, the college appealed the students to continue practicing yoga everyday for improving their health and immunity. The teachers and ex-students also participated in the event.

Spotlight

'Spotlight' was a unique event carried out mainly to assist the students learn the lessons of event-management. Besides, it provided the stage to the students for showcasing their dances, music, speeches, dramas and the newly awakened craze among the youngsters, the stand-up comedy. Completely coordinated by the student-council of JGCC, Spotlight was organized on 3rd February, 2020 at the convention hall where 25 students literally set the stage on fire. It is only during such events that everyone realized that 'Amisha' with her spectacled academic look was an accomplished western dancer whereas the serious-faced geek Mohit was a stand-up-comedian.

Bazaar
The Mock Stock

Warren Buffet once said, "**The most important quality for an investor is temperament, not intellect.**" The college therefore thought why not to train the young minds to control their temper, apply their intuition and utilize their knowledge virtually in a mock-stock before they actually plunge into the stock-market. Organized by the Student Council Members on 8th January, 2020 at Convention Hall, the event was a huge success where 50 students displayed and learnt the tricks of trading by investing virtual amounts in shares and bonds in an attempt to maximize the profit.

JGCC Placement Cell
One of the Best in Business

Generally Placement cells in colleges confine to a role of an intermediary between the approaching organizations wanting to recruit employees and the job-aspiring students. Some may go one step ahead to invite various companies for campus recruitment of students.

But the highly committed and pro-active placement team of JGCC decided to help students in not only setting up interviews but enabling them in sharpening their employability skills. In order to achieve this goal, the placement team of JGCC conducted a one-day workshop on 4th January, 2020 for TYB. Com students to prepare them for job-interviews and related matters. In-house faculty members conducted six highly informative sessions in a 3 hour work-shop.

Dr. Delnaz Jokhi delivered a session on "Approaching Personal Interview and Group Discussion", whereas Prof. Jigar Joshi guided the students about "Effective CV Making". Prof. Dhaval Kataria discussed the "Importance of dressing well" in the interview. Dr. Kandarp Chavda spoke on "Basic Computer Skills for Jobs". Prof Mrunal Mehta emphasized on carrying right attitude for job. CA Kartik Patel's session underlined "Basic Employee Responsibility and Discipline". The combined efforts made the students realize the importance of working hard today for a better tomorrow. This Saturday workshop was attended by 100+ students. Talking about the ultimate outcomes, the JG placement cell boasts of 50 placements which is a testament of its tireless and sincere efforts.

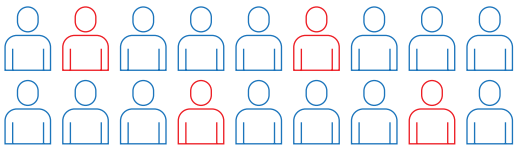
Recruitment Drive



The Scottish-American steel giant Andrew Carnegie remarked, "You cannot push anyone up the ladder unless he is willing to climb it." For our job-enthusiasts who were willing to climb the first step of the ladder of their professional careers, a **"Recruitment Drive"** was organized on 15th February, 2020. The placement cell of JGCC invited three global KPO companies (for Accounting and Taxation) and one Life Insurance Company for testing the employability skills of T.Y.B.Com and M.Com students. They screen-tested and interviewed 65+ students and offered them an annual package of 2 to 3.5 lakhs. The deserving students were given on the spot appointment letters while some others were called for further rounds at the company offices. The event was coordinated by Prof. Kartik Patel, Prof. Mrunal Mehta and Prof. Jigar Joshi.

Anti-Drug Awareness Seminar

Addiction, like natural disasters can happen to anyone at anytime at any phase of life. People have their finances, health, relationships, careers and lives turned topsy-turvy due to such fatal obsession. The young college students have always been vulnerable to this temptation, sometimes due to frustrations of life and sometimes just out of peer-pressure. That was the reason JGCC invited **Mr. Shailendra Mishra**- Zonal Director of Ahmadabad Narcotics Control Bureau on 7th January, 2020 for a seminar on **Anti-Drug Awareness.** The speaker meticulously narrated the deadly consequences of this evil wrapped in the form of ecstasy. He explained the legal, social and psychological dimensions of this problem along with symptoms for early detection. He also informed about the rehabilitation programs. The event was coordinated by Prof. Dinesh Patel.

Educational Visit to Gujarat Vidyapith

Founded by Mahatma Gandhi on 18th October, 1920, Gujarat Vaidyapith still remains one of the oldest academic institutes which educates students **through character-building, infusing traditional Indian culture & ethos and propagating Gandhian way of life.** In order to sense a different aura of erudition, 41 students of JGCC were taken to this devout academic shrine on 6th February, 2020. Passport awareness seminar

The younger generation lives with no excuses and travels with no regrets. Travelling abroad has become as common as roaming in one's own state. The first step to it is to get passport issued by the government. In olden days, the process of getting passport was long yet safe. Now the online process has become easy yet risky. One must know about the process of filling-up online application, the documents required, the cautions to be kept in mind to avoid possible frauds and the approximate time taken for passport issuance. For providing information about all these issues, JGCC organized a 'passport awareness seminar' in association with the ministry of External Affairs on 19th December, 2019 at Convention Hall. The speakers Ms. Dhruli Doshi and Ms. Bela also solved the doubts of the students. The event was coordinated by Dr. Dhaval Kataria.

Cancer Awareness Program

Millions of people in the world are living with cancer. A research by **Scroll.in** reveals that about 40% of blood cancer patients require a bone marrow transplant. One third of them are able to find a donor within the family. Only 5% of the remaining two-third are able to find the outside donors. The irony is that majority of the people are afraid to donate marrow as they fear that it would adversely affect their health; something which is far from the truth. A cancer awareness seminar was organized on 23rd December, 2019 where the speaker Dr. Steffi Mac explained the need and ease of donating the bone marrow and in the process removed many myths and notions. The event was coordinated by Dr. Dhaval Kataria.

The students generally interpret traditional day as the day to flaunt ethnic dresses. 'My Favorite Three Actors

Team Reflection invited articles on 'My Favourite Three' from the students. There was an overwhelming response. Here are the best entries....

Amitabh Bachchan

Birth Date: 11th October, 1942

Birth Place: Allahabad, India

Debut Movie: Saat Hindustani

Block-busters: Zanzeer, Sholay, Deewar, Anand, Shakti, Paa, Piku

Rejection of Amitabh Bachchan by All India Radio as an RJ turned out to be a blessing for Bollywood. He has spent a glorious five decades at box-office with more than 200 movies. A symbol of energy and vivacity, at the age of 77, he remains busy in shooting and brand-endorsing. A social media enthusiast and twitterati, he loves to be in continuous contact with his fans. He has 17 million twitter followers which is the highest number among any celebrity being trailed. Charismatic is a lesser adjective for this man who has all the age groups as his fans.

Anil Kapoor

Birth Date: 24th December, 1956

Birth Place: Chembur, Mumbai, India

Debut Movie: appeared in his first film with a small role in the Umesh Mehra's romance Hamare Tumhare.

Block-busters: Meri Jung, Yudh, Karma, Janbaaz, Aap Ke Saath, Mr. India, Virasat, Tezaab, Beta, Pukar, Dil Dhadakane Do

He has won two National Film Awards and six Filmfare Awards. Fountain of youth, as he is rightly called, Anil Kapoor is always younger than any of his co-stars in the industry. There is something convincing in his voice and acting. His 'jhakaas' dialogue delivery makes the audiences clap and whistle in theatres. Munna, Lakhan, Prem Pratap Patialawale, Ishwar, Virendra Pratap Singh or Saheb, Anil gets lost in the character he plays and makes them iconic forever.

Sri Devi

Birth Date: 13th August, 1964

Birth Place: Sivakasi, India

Debut Movie: Solwa Savan

Block-busters: Himmatwala, Mawali, Tohfa, Chandni, Sadma, Nagina, Mr. India, Chalbaz, Lamhe, Mom, English-Vinglish

In a career that spanned five decades, she was known for her portrayal of woman as a strong character. She appeared in a range of genres, from slapstick comedy to epic dramas. She was one actress who used to dominate the film with her strong roles, often out-performing her male co-actors, in an otherwise male-dominated industry. She was widely regarded as one of the greatest and most influential actresses in the history of Indian cinema. Her dancing and acting skills were unparalleled. The way she used her eyes while acting was extra-ordinary and captivating for the audiences.

My Favorite Three Sports Persons

Mahendra Singh Dhoni

Birth Date: 7th July, 1981

Birth Place: Ranchi, Bihar, India

Debut Match: ODI debut in December 2004 against Bangladesh,

Records to Remember: Most wins by an Indian captain in ODIs and T20Is, ICC ODI Player of the Year award in 2008 and 2009 (the first player to win the award twice), selected a record 8 times in ICC World ODI XI teams, 5 times as captain.

Interesting Facts: His journey from a TC to cricketing legend, Tried his hand at football and badminton as well.

Why I like Him: Nobody could have imagined that a long-haired boy who scored a duck in his debut match would create history. His style of hitting a six to finish the match made him a national idol. He is arguably the best wicket-keeper the game has ever seen. His trademark helicopter shot while batting made him a treat to watch. The power he generated in his shots was incredible. He is considered one of the hardest hitter of the cricket ball in the world. Dhoni is the only captain in world cricket to win all three ICC trophies - 2007 World T20, 2011 World Cup and 2013 Champions Trophy. He is also the most successful ODI and T20 captain for India with 110 and 41 wins respectively. He was one of the best cricket captains in the history of the game. The way he maintained the calmness in testing time was exceptional.

Lionel Andrés Messi Cuccittini

Birth Date: 24th June, 1987

Birth Place: Rosario, Argentina

Debut Match: October, 2014 in Barcelona Team against Espanola

Records to Remember: Won a record six Ballon d'Or awards, and a record six European Golden Shoes. A prolific goal-scorer and a creative playmaker, Messi holds the records for most goals in La Liga (437), most hat-tricks in La Liga (36) and the UEFA Champions League (8), and most assists in La Liga (181) and the Copa América (12). Why I like Him: Often considered as a "King of Football", Lionel Messi joined the Rosario club when he was six years old. At age 10, he was diagnosed with a growth hormone deficiency. Amidst poor financial condition of the family, he bravely recovered from it and again concentrated on the game of his love. The rest is the history. Messi is not only one of the best players in the world, but in fact he is the best dribbler in the world. His loyalty for the club and country is exemplary. According to Pep Guardiola, the Spanish Football Manager, "Don't write about him, don't try to describe him. Just watch him."

Interesting Facts: established the Roger Federer Foundation to help disadvantaged children and to promote their access to education and sports

Why I like Him: Being one of the best athletes in the world, Federer has played tennis tournaments in 23 countries and has won tournaments in a total of 15 countries. As an aspiring tennis player, Roger Federer looked up to Pete Sampras, who had 14 Grand Slam titles during his career. Federer broke this record—a long time goal of his—at Wimbledon in 2009, and has continued to rack up Grand Slams. When he isn't playing tennis, Federer loves to go hiking. On his Instagram, he often includes photos of his hikes through the famous Swiss Alps. Watching Federer play for hours with his top opponents like Nadal and Djokovic is a visual treat. They keep on swapping top ranks from time to time. He is also respected for being a family man giving priority to his family (his wife Miroslava and two set of twins, two boys and two girls.)

Life Lessons from the Taoist Master Lao Tzu (Taoism)

Lao Tzu was a legendary Chinese figure who was the founder of Taoism. I was amazed by the simplicity of the rules explained for living a better life. Here is the crux of it.

1. Knowing others is intelligence, knowing yourself is true wisdom

2. Mastering others is strength, mastering yourself is true power

3. By letting go, you become free and relaxed. We need to slow down the speed of our lives.

4. Attachment to power, recognition, wealth and success causes misery.

5. Pay no attention to evil and it will crumble away.

6. Kindness and compassion for others is the greatest source of happiness.

7. Be yourself without caring what others think. Nothing can be more time and energy wasting than being overly-concerned about what other people think of us.

8. If we take our decisions based on our highest integrity and honesty and certain people disapprove, we should not bother too much about it.

9. Wisdom and strength come from remaining humble.

10. Change is inevitable, so embrace it, even it seems uncomfortable.

11. Try to understand and listen to your people, if you ever wish to lead them

12. Always go with the flow. Rather than fighting the conditions in our lives, we should allow things to take their natural course.

The Real Heroes from JGCC

In order to win the hearts and earn the respect of the fellow human-beings, you don't need to do anything extra-ordinary. The small acts of benevolence and responsibility are enough to make you stand out in the crowd.

1. **Gandhi Yashasvi (Sem-2)** donated a set of books to the college library. She herself is a voracious reader and wants other students also to indulge in reading. She believes that reading quality books enhances the language and over-all personality of the readers.

2. **Deliwala Vrushali (Sem-2)** caught the eyes of Prof. Dr. Arati Shah as she used to switch off all the lights and fans after the classes got over. It's not a big deal but still a very thoughtful gesture. She says, "Saving energy is saving earth. I am too tiny a creature to protect the great mother-earth, but I ll never fail to do my bit and play my part." Vrushali, you indeed are a role-model. Keep it up.

3. **Gujar Jay Viraji (Sem-2)** has been gifting the set of text-books to his junior college students who are needy and can't afford them. The college needs more such Samaritans who come forward and help each other. Jay believes that JG college of commerce is one big family and he makes friends for lifetime through his small gift.

4. **Gami Ansh (Sem-2) and Prof. Rajmohan Nair** came up with a brilliant idea which everyone accepted with open arms. They suggested that every Saturday the interested teachers, students and directors, who are health-conscious and ecologically sensitive can swear to avoid fuel-based vehicles. A small group has decided to use only bicycles and public transportation on every Saturday. More and more people are expected to join this wonderful initiative in the coming time. The students, faculty members and the principal are determined to give the college-parking place a deserted look on each Saturday.
