Teachers' feedback which involves accurate appraisal of the effectiveness of the teaching, its strength and area that need development and revision of curriculum plays an important role in the development of the students. The collection and analysis of feedback from teachers assist the JG College of Commerce to understand the need of students, society and other stakeholders foresee from the college. From the analysis of the data collected from the professors, we can find that the present syllabus is well designed and sufficient enough to get the knowledge about the subject and for the overall development of the students. But on other side syllabus does not help students to get right employment.

Suggestion by the faculties:

- We can include topics that focus on practical aspects of communication and management.
- Some more practical aspect related to subject can be added.
- Syllabus should be in sync with the industry
